

NATIONAL PHOTOGRAPHIC INTERPRETATION CENTER

NPIC NOTICE
NO. 10-23-3

SECURITY
16 April 1963

PROPER CLASSIFICATION OF VU-GRAPHS AND SLIDES

1. Effective immediately, each recipient of this Notice is to ensure that all projection materials in his possession are immediately checked to see that they are properly classified.

2. The security classification, codeword and other dissemination restrictions must appear on all projected materials at both the top and bottom of the transparency itself so that they will show when projected. The transparency holder should also bear these markings so that the user can readily determine the classification of the projection material to avoid improper handling.

3. These markings should be sufficiently large so that when projected they are easily seen by the viewing audience.
